

Save the Regents' Scholarship!

Rally for the Common Good

Chop from the Top!

The Board of Regents will meet on May 7 & 8 to discuss the University Administration's budget proposals, including a proposal to cut the Regents Scholarship. Tell the Board of Regents and the Administration that they must not balance the budget on the backs of front line workers. Let them know that any cuts to the Regents' Scholarship will result in most employees being unable to take classes and further their education.
